

Wednesday, 5 November 2008

CONFERENCE ROOM

5° Palazzo Uffici - Eni E&P division

Via Emilia 1

SAN DONATO MILANESE

Gian Luigi Chierici can be considered a pioneer in the Reservoir Engineering, having made substantial contributions on this subject. He was active in SPE and is the only one Italian, up to now, to be awarded with a SPE international prize as he was the 1996 recipient of the Reservoir Description and Dynamics Award. To commemorate Gian Luigi Chierici, the SPE Italian Section invites you to attend the event:

PIONEERING RESERVOIR ENGINEERING: THE WORK OF GIAN LUIGI CHIERICI
